The **MilSight™ S135 AN/PVS-27 Magnum Universal Night Sight™ (MUNS™)** is an incredibly powerful night vision weapon sight with an impressive magnification. Big brother to the AN/PVS-22, it can be mounted in front of any boresighted daytime scope with magnification ranging from one to twenty power. The AN/PVS-27 is optimized for medium and long-range sniper weapons including the SR-25/MK11, XM107, .338 Lapua, .308 M24, Chandler & 300 Win Mag and effective on all weapons from carbines to .50 caliber semi-automatic and bolt action sniper rifles.

STANDARD ACCESSORIES
