

T-75 THERMAL WEAPON SIGHT

The **FLIR ThermoSight® T-75** is a clip on thermal weapon sight which provides outstanding images in environmental conditions of total darkness, fog, smoke, and dust. The T-75 mounts in front of any day optic, such as the Trijicon ACOG for the M-4, M-16, and similar weapons. This system can also be used as a stand alone weapon sight. The T-75's low profile above the rail reduces interference with other devices or snag hazards. It's lightweight and ergonomic design allows the operator to keep control of the weapon's aimpoint while adjusting the sight and minimizing operator fatigue. A thumb operated mini-joystick can adjust or control the sight while keeping hands on rails, grips, or triggers. It's compatible design does not inhibit its ability to withstand thousands of rounds of rapid fire gun shock. The magnification options (1X, 2X or 4X) allow a wide field of view for situational awareness or a narrow field of view for identification and targeting. (Dayscope magnification up to 8X) An optional laser pointer can be used to identify targets to squad mates.

SPECIFICATIONS

POWER SOURCE:	2-3 AA BATTERIES
RESOLUTION:	640X512
FRAME RATE:	30 HZ
MAGNIFICATION:	1X, 2X, 4X
FIELD OF VIEW:	9.4X7.5
SPECTRAL RESPONSE:	7.5-13.5 UM
POLARITY CONTROL:	WHITE HOT/BLACK HOT
DETECTION RANGE:	1400 YDS (1280M)-MAN
THERMAL SENSITIVITY:	1MK
WEIGHT (W. BATTERIES):	28 OZ (794 G)
DIMENSIONS:	7.3" X 2.8" X 3.5"

FEATURES

- » **ONE YEAR WARRANTY**
- » **CLIP ON THERMAL WEAPON SIGHT**
- » **WORKS THROUGH ANY ENVIRONMENT**
- » **AVAILABLE WITH/OUT LASER POINTER**
- » **STACE™ DIGITAL ENHANCEMENT**
- » **PERISCOPE DESIGN PROVIDES IMAGES HIGHER THAN RAIL**

STANDARD ACCESSORIES

Soft Case, Operator's Manual, Quick Reference Card, Remote Control Pad, Battery Cartridge, (3) CR 123 Lithium Batteries, Lens Cloth, Light Shroud/Eye Relief and Video Output Cable.
