

BNVD-E NIGHT VISION BINOCULAR

SPECIFICATIONS

POWER SOURCE:	(1) AA-SIZE BATTERY
FOCUS RANGE:	9.8" TO INFINITY
OPERATION TIME:	40+ HRS
MAGNIFICATION:	ONE POWER (1X)
FIELD OF VIEW:	40°
DIOPTER ADJUSTMENT:	-6 TO +2
EYE RELIEF:	25MM
WEIGHT:	19.2 OZ (545 G)
DIMENSIONS:	4.25" X 3.8" X 3.3"

FEATURES

- » **HIGH LIGHT CUTOFF**
- » **SUBMERSIBLE TO 66 FEET**
- » **40+ HOUR BATTERY LIFE WITH LITHIUM AA BATTERY**
- » **IR LED AND LOW BATTERY INDICATOR**
- » **POWER OFF THE UNIT WHEN IN AN UPRIGHT POSITION AND POWER ON WHEN FLIPPED DOWN**

INTERNATIONAL SALES

The **NVD-BNVD Binocular** is a dual tube night vision goggle with outstanding depth perception and supportability at an affordable price. The NVD-BNVD series can be used as a monocular by choosing which side you want to use as your night vision eye and rotate the other side/arm of the binocular up and out of the way. When night vision is no longer needed, power off and rotate both sides up and out of the way. The unit will power off when in an upright position and power on when flipped back down. When the NVD-BNVD is rotated up the low profile of the goggle should not interfere with anything above the user's head. This reduces risk of damage to the goggle and mount from rapid vehicle exits. Focus length adjustment parameters of the BNVD provides end users the ability to quickly identify a faulty rifle discharge and ability to read a map in full night vision use. This system complies with MIL-STD 810G, MIL-PRF-A3256342A(CR) and MIL-PREF-49427(CR).

STANDARD ACCESSORIES

Soft Carry Case, Demist Shields, Sacrificial Windows, IR Spot/Flood Lens, Dovetail Mounting Adapter, Lens Tissue, (2) AA Batteries, Operator's Manual & Card, Neck Cord, Eyecups and Front Lens Caps.

OPTIONAL ACCESSORIES

3X Magnifier, Compass Assembly, G24 Helmet Mount, Shuttered Eyeguards, Camera Adapter, and Battery pack for 50-60 hours of continual use for extended missions.

HELMET MOUNT OPTIONS

The BNVD can be used as a monocular by choosing which side you want to use as your night vision eye and rotate the other side/arm of the binocular up and out of the way. Each arm is tight enough so that the rotated arm will not fall down, but stay in its user adjusted position. To use as a binocular, rotate both sides down or when night vision is no longer needed, shut off and rotate both sides up and out of the way.

Never before could a binocular remain mounted when sighting with a rifle. The NVD-BNVD does not need to be removed. Simply rotate one monocular of the NVD-BNVD up and out of the way, so that the user can view through the dayscope & night vision weapon sight.

BNVD WITH WEAPON SIGHT

BNVD-3X MAGNIFIERS

The NVD-BNVD can be used with optional 3X Afocal Magnifiers. Each 3X Magnifier can be either slide onto each objective lens or screw into the threads on the objective lenses. For extended use, it is recommended to screw them on to prevent the lenses from falling off. These magnifiers transform the NVD-BNVD into a fixed 3X Magnification Binocular.
