INTERNATIONAL SALES

The **NVD-750** is a rugged 4X Night Vision Weapon Sight featuring state of the art electronics and optics, and a highly durable aircraft grade aluminum body for reduced weight and improved recoil resistance. The NVD 750 has a detection range of 1795 feet with recognition range at 1548 feet.

The NVD 750 is nitrogen purged and waterproof, and features high quality multi coated optics, as well as an illuminated green or amber Mil-Dot reticles, and a quick release picattiny/weaver rail weapon mount. The NVD 750 uses two AA batteries for a continuous run time of up to 60+ hours and is guaranteed with maintaining a zero boresight retention on weapons up to 7.62/.308 caliber.

The NVD 750 is available with Gen 3 image tubes and built-in manual gain control. All units include: Hard Case, Operator's Manual, Objective Lens Cover, Cleaning Cloth and Batteries.
