The **FLIR® BHS-Series Bi-Ocular** camera gives law enforcement officers the ability to see more and see farther in infrared than with other low-light night vision goggles. Featuring a full coverage eyepiece, inter-ocular adjustment, ergonomic comfort, straightforward controls, and the rivaled performance that only FLIR® can deliver, the H-Series Bi-Ocular is a must-have for extended patrols, covert surveillance, critical infrastructure protection, and high-threat security missions. The BHS has two models: BHS-X (320x240 - 2X E-zoom) and BHS-XR (640x480 - 4X E-zoom). Each model is available with either 9 or 30 Hz frame rate. A quick disconnect lens is available separately in 35, 65 and 100mm.
