- » **AA BATTERY USAGE**
- » **MEETS IPX67 RATING**
- » **MIL DOT RETICLE**
- » **DETECTION RANGE UP TO 1890 FT**
- » **FIXED 4X MAGNIFICATION WEAPON SIGHT**

The **NVD-740** is a rugged 4X Night Vision Weapon Sight featuring state of the art electronics, and a polyamide molded housing that is water, dust and shock-proof. The NVD-740 has a detection range of up to 1890 feet with recognition range at up to 1305 feet. The scope is superior for the long-range shooting applications, with outstanding accuracy in the most unfavorable conditions.

The NVD-740 is nitrogen purged and waterproof, and features high quality multi coated optics, as well as an internal lit mil-dot illuminated red-on-green reticle with adjustable brightness, and a standard weaver MIL-STD-1913 rail mount.

The NVD-740 uses two AA batteries for a continuous run time of up to 100 hours and is guaranteed with maintaining a zero boresight retention on weapons up to 7.62/.308 caliber.

With our expansive capabilities and strategic partnerships, we are able to custom build any of our NVD manufactured products with Image Intensifiers from either Elbit Systems of America®, Photonis® or L3Harris®. This includes green and white phosphor and thin or un-filmed image tubes.

*Images show discontinued quick release picatinny weapon mount
System will come with updated standard weaver MIL-STD-1913 rail mount
