

NVD-790 NIGHT VISION WEAPON SIGHT

SPECIFICATIONS

FOCUS RANGE:	75 FT TO INFINITY
BATTERY TYPE:	(2) AA BATTERIES
BATTERY LIFE:	120 HOURS
WINDAGE/ELEVATION:	¼ MOA PER CLICK
MAGNIFICATION:	SIX POWER (6X)
FIELD OF VIEW:	6.3°
EYE RELIEF:	55MM
DIOPTER ADJUSTMENT:	+3 TO -4
OBJECTIVE LENS:	165MM, F/2
WEIGHT:	43 OZ (1220 G)
DIMENSIONS:	12.2" X 3.9" X 3.5"

FEATURES

- » **TWO YEAR WARRANTY**
- » **HD MULTI-COATED OPTICS**
- » **MEETS IPX67 RATING**
- » **DUAL COLOR MIL-DOT RETICLE & RETICLE BRIGHTNESS CONTROL**
- » **DETECTION RANGE UP TO 2775 FT**
- » **MANUAL GAIN CONTROL & PRECISE WINDAGE/ELEVATION ADJUSTMENT**

The **NVD-790** is the new and improved update to the very popular NVD-760 6x scope. The incorporation of state-of-the-art optics and coating technologies improve range, contrast, clarity and light transference by more than 20% over the NVD-760. The new ergonomically designed power-supply and control system enables easy on-the-fly adjustments to device power, reticle color, reticle brightness and gain (image brightness) without taking eyes off target.

Standard features include new and improved 6x optics; shockproof housing; dual color Mil-Dot red-on-green or yellow-on-green reticle with brightness control; precise optical focus; manual gain control; windage and elevation adjustments, an impressive battery life, and a standard weaver MIL-STD-1913 rail mount.

With our expansive capabilities and strategic partnerships, we are able to custom build any of our NVD manufactured products with Image Intensifiers from either Elbit Systems of America®, Photonis® or L3Harris®. This includes green and white phosphor and thin or un-filmed image tubes.

STANDARD ACCESSORIES

Soft Case, Operator's Manual, Lens Cap, Cleaning Cloth, and Batteries.
