

# TANS NIGHT VISION WEAPON SIGHT

The **MilSight™ T90 Tactical Night Sight™ (TaNS™)** is a high resolution clip-on night vision weaponsight with a versatile and portable design. Little brother to the AN/PVS-22, it can mount in front of any boresighted daytime scope with magnification ranging from one to eight power. The TaNS™ does not require any boresighting and once mounted the daysight provides the aiming point. The TaNS™ maintains boresight despite normal misalignments due to mount position errors and does not alter the sighting centerline (parallax is unchanged from dayscope).

The TaNS™ is revolutionary when used with a high magnification fixed or variable power dayscope. This system can handle up to 8X magnification through the dayscope. The TaNS™ includes FLIR's proprietary Shock Mitigation System™ (SMS™), allowing the unit to be used on weapons up to and including .50 caliber bolt-action rifles. The TaNS™ is manufactured with the highest quality MIL SPEC Gen III Pinnacle, American Made Image Intensifiers.

## SPECIFICATIONS

POWER SOURCE:	<b>(2) AA-SIZE BATTERIES</b>
FOCUS RANGE:	<b>3M TO INFINITY</b>
MAGNIFICATION:	<b>ONE POWER (1X)</b>
FIELD OF VIEW:	<b>14°</b>
BORESIGHT ADJUSTMENT:	<b>NONE REQUIRED</b>
BORESIGHT ACCURACY:	<b>0.5 MOA OR BETTER</b>
BORESIGHT REPEATABILITY:	<b>WITHIN 0.5 MOA</b>
BORESIGHT RETENTION:	<b>PERMANENT</b>
DAYSCOPE ADJUSTMENT:	<b>1 TO 8 POWER</b>
OBJECTIVE LENS:	<b>50MM, F/0.9</b>
WEIGHT (W/O BATTERIES):	<b>24 OZ (680 G)</b>
DIMENSIONS:	<b>5.6" X 4.5" X 3.75"</b>

## FEATURES

- » **ONE YEAR WARRANTY**
- » **MOUNTS IN FRONT OF DAYSCOPE**
- » **GAIN CONTROL**
- » **MAGNIFICATION UP TO 8X**
- » **NO BORESIGHTING NEEDED**
- » **BEST FOR MEDIUM RANGE SNIPER RIFLES**

## STANDARD ACCESSORIES

Operator's Card, Soft Carry Case, Weaver Rail Mount, Light Shroud, Flip Up Lens Caps, Batteries and a Lens Cleaning Kit.
