

UNS NIGHT VISION WEAPON SIGHT

The **MilSight™ T105 AN/PVS-22 Universal Night Sight™ (UNS™)** may be the most reliable and easiest to use night vision weapon sight system ever fielded. The AN/PVS-22 is small enough to clip-on in front of any boresighted daytime scope with no adjustments necessary. The AN/PVS-22 utilizes the scope's magnification and can range from one to twelve power.

FEATURES

- » **ONE YEAR WARRANTY**
