FEATURES

- TWO YEAR WARRANTY
- OPTIONAL GAIN CONTROL
- 4X OR 6X MAGNIFICATION
- AA BATTERY OPERATION
- ILLUMINATED VARIABLE INTENSITY RETICLE
- MOUNT TO ALMOST ANY WEAPON

NVD is pleased to announce the return of our dedicated night vision weaponsight product line known as the TALON, and now referred to as the TALON Mk2. The **TALON Mk2 Night Vision Weapon Sight** line is based upon one of the best known night vision weaponsight product lines that was ever produced. This line of sights was offered with various modifications which were designated as the Aquila, Raptor, ITT 7000 and the Nighthawk.

With the introduction of night vision clip-on weaponsights, there was a loss of interest in dedicated night vision weaponsights for some time, however many different customers around the world have found that the use of a dedicated night vision sight is much more efficient, reliable, cost effective and accurate than the use of a clip-on night vision scope. This is especially true when the end user does not have access to weapon with an extended rail which is long enough for the mounting of both a dedicated day scope and a clip-on at the same time. Also, a dedicated weaponsight is in most cases, a more accurate set up than a combined day scope and clip-on.

The TALON MK2 4X & 6X Night Vision Weapon Sights are a lightweight & rugged design which utilizes a very high strength aluminum alloy housing and the highest quality optical components into one package which shows outstanding performance in the field. The TALON MK2 can be adapted to almost any weapon with a MIL-STD-1913 Picatinny Rail. This weapon sight has the ability to withstand the recoil of 5.56/223, 7.62/308 and higher CAL sniper rifles.

The TALON MK2 incorporates an illuminated variable intensity reticle which can be adjusted for variable light conditions. Windage and Elevation are adjusted with independent adjustment knobs. The TALON MK2 is also optionally available with a variable gain control to adjust for best image quality during varying light levels.

TALON MK2 4X

STANDARD ACCESSORIES

Soft Case, Operator's Manual and Batteries.
