PRODUCT OVERVIEW

The Wilcox line of NVG Interface Shoes are designed to replace the plastic shoes provided with a variety of night vision/thermal devices. These durable, lightweight and hard coated aluminum shoes easily integrate with the Wilcox line of NVG helmet mounting solutions. These shoes are designed and manufactured to provide optimal fit between the NVG and shoe eliminating any play or wobble.

MOUNT COMPATIBILITY

-Compatible with all dovetail interface mounts

SPECIFICATIONS

Material:

Hard Coat Anodized Aluminum

FEATURES & BENEFITS

- Quickly attaches to an array of NVGs and thermals
- Combat proven by military and law enforcement
- Provides rock solid mounting interface with NVG mount
- Lightweight design adds strength and durability over OEM shoes
- Hard coat anodized black aluminum

Available Colors: ■-B
