

# WLS THREE-HOLE SHROUD

## WILCOX LIGHTWEIGHT SHROUD

UNIVERSAL INTERFACE

PRODUCT ILLUSTRATED IN BLACK (-B) & TAN (-T) WITH AND WITHOUT LANYARD

### PRODUCT OVERVIEW

The WLS (Wilcox Lightweight Shroud) three-hole shroud offers all the same features and durability of our proven G34/G35 three-hole shroud with a lower profile, and 20% weight reduction. The WLS is available with a Universal or Lo-Pro interface. Both models are also available with or without a NVG lanyard.

### MOUNT COMPATIBILITY

-Compatible with the full line of Wilcox L4 series NVG mounts

*\*DPAM, GSGM & G24R mounts require WLS with Lo-Pro interface*

### SPECIFICATIONS

Hole Pattern: Three-hole  
 Accepts Lanyard: Yes

### FEATURES & BENEFITS

- Mounts to ballistic/non-ballistic helmets drilled with three-hole pattern
- Rock solid mounting with unmatched tolerances eliminating wobble
- Three lengths of screws are provided for varying helmet thicknesses
- Universal & Lo-Pro interfaces offer modularity for various mounts
- Extremely durable, lightweight and low-profile
- Optional lanyard prevents loss of NVG
- 5 Year Standard Limited Warranty
